陳省身

一九八八年九月

Mathematical physics is a subject of study which dated far back to ancient times, and has found speedy development in recent years.

It is most significant that the Theoretical Physics Division of Nankai Institute of Mathematics will publish a series of books on the subject.

C.N.Yang

数学物理是很古老的学科.近年来发展尤其迅速.南开数学所理论物理研究室将出版一系列关于此学科的书籍,这是很有意义的事.
